PROJECTS

SGPA Autonomous Calculator | Python, HTML, CSS

- Built a web-based SGPA calculator specifically tailored for ABES Engineering College (AKTU), automating grade computation.
- Reduces manual calculation errors for students and provides instant results based on AKTU grading norms.

GradeWallah – Academic Performance Tracker | Python, HTML, CSS, JavaScript

- Developed a platform for students to track academic performance, identify weak areas, and access study resources.
- Integrated internship and placement opportunity discovery from various platforms worldwide.
- Designed to bridge the gap between academic progress and career readiness for college students.

OPEN SOURCE CONTRIBUTIONS & EXPERIENCE

Open Source Contributor | GirlScript Summer of Code (GSSoC) 2025

- Actively contributed to open-source projects under GSSoC, collaborating with a global developer community.
- Resolved issues, submitted pull requests, and improved documentation/code quality across repositories.

Open Source Contributor | Hacktoberfest 2025 Oct 2025

- Participated in Hacktoberfest 2025, contributing meaningful code and documentation improvements to open-source projects.

CERTIFICATIONS & ACHIEVEMENTS

- AWS Cloud Foundations – Earned verified AWS badges covering compute, storage, networking, and security fundamentals.
- JPMorgan Chase Software Engineering Virtual Experience – Completed via Forage; gained real-world SWE exposure.
- Deloitte Australia Data Analytics Job Simulation – Completed via Forage; hands-on data analytics experience.
- C++ STL Certification – CodeChef; demonstrated proficiency in Standard Template Library.
- React.js Unfiltered – AIALCHEMIST, hosted by Gyan Ganga Institute of Technology & Sciences (Unstop).
- E-Cell Competition Participant – Demonstrated entrepreneurial thinking and problem-solving skills.
